

# OPERATOR STATION

# OPERATOR STATION

## Features

Kar-Tech's Operator Control Station puts all the critical machine information that a user needs in front of him in a single, central location. The Control Station can be used for as little as textual or graphical diagnostic information (valve pressures, hours, etc.), or it can be used for local machine control or calibration of machine settings, and integrated with GPS, radio control, remote diagnostics and any other Kar-Tech technology. It's a sealed, solid, all-in-one solution that looks sharp, offers state-of-the-art technology, and is built to last.

## General

Weight	1.6 lb.
Operating Temperature	-40° to +85° C -20° to +70° C with LCD display
Storage Temperature	-40° to +100° C -30° to +80° C with LCD display
Ingress Protection	IP67 nominal
Housing Material	Fiberglass enclosure
